Cryptocurrencies and regulation in the world

Countries around the globe are moving towards regulation of digital assets with an emphasis on user protection

United States

- On the road to regulation
- SEC approved Bitcoin and Ether ETFs

European Union

- MiCA regulation file, to come into force at the turn of 2024/2025

United Arab Emirates

- Cryptocurrency projects obtain VASP licence from the VARA regulator

Probinex & Regulation

Regulation

From the beginning,
we have been ahead
of regulation

We currently hold the VASP
licence to exchange
cryptocurrencies and fiat
within the European Union

We are seeking
a CASP license

VARA has granted initial
approval of our application
for a VASP license for the UAE

Everything revolves
around the PBX

PBX token

The original tool
for **financing**
the project

It brings **higher rewards,**
bonuses, and **benefits**
in Probinex products
to its holders

Limited emission

1 billion PBX

PBX and its phases

year 2021

● **Token sale (Phase 0)**

year 2022

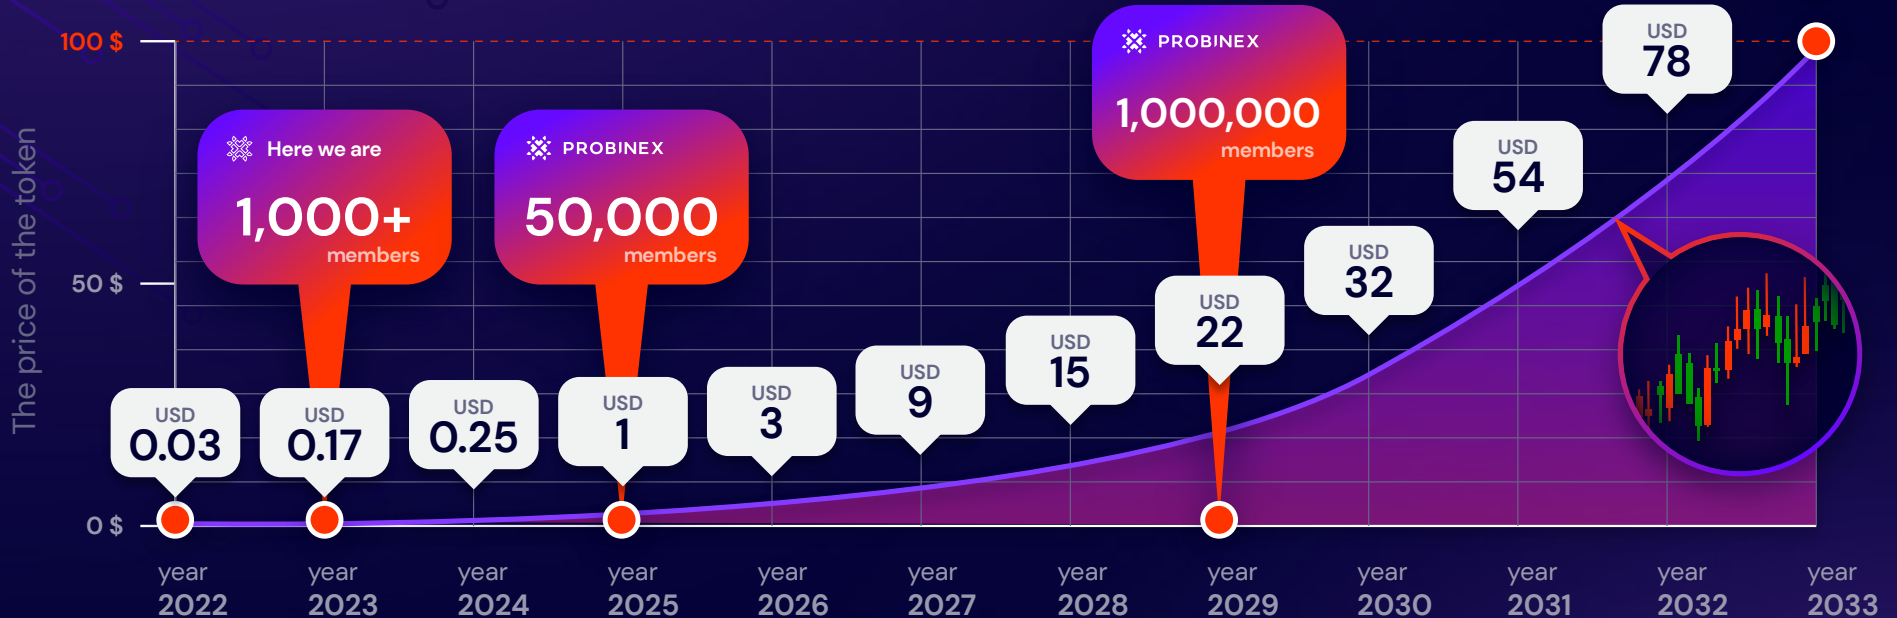

● **Listing on Probit (Phase 1)**

year 2023

● **Launch of Earnio (Phase 2)**

Our estimate of the possible increase in the PBX token price*

*The estimate of the potential token price increase is based on our own calculations using internal data. However, the token price is influenced by many factors that cannot be estimated or influenced with certainty. The actual future price may vary. It may be even lower than at present. The information presented does not guarantee the future price of the token.
